Title: Lousy First Date.
Fandom: Supernatural.
Rating: PG.
Warnings: None.
Pairings/Characters: Lucifer/Dean.
Word Count: 100 words.
Summary: Human AU wherein Lucifer and Dean have a lousy first date and damage the Impala.
Note: Written for **theinsaneeraser** for something. Lord if I remember what though.

(At least it wasn't all bad, hm?)

Lucifer's lounging against the hood of the Impala, smoking while Dean works under the chassy.

"At least it wasn't *all* bad, hm?" He muses, flicking ashes to the side. Not that he regrets attempting to get them arrested for public indecency.

Lucifer grinds the cigarette under his heel as Dean climbs out, covered in grease and sweat.

Barely a moment from getting an eyeful to deciding that the date's not over yet, and instead of roses it's gravel.

But Dean kisses back instead of shoving him off, and that's a win in Lucifer's book.

Still: he'll bring roses next time.
